COMMENTS:

I oppose the revised plans and can't understand why dropping the roof height by just 90cm would make this application acceptable, it still doesn't resolve all of the other issues and concerns raised by myself and many others during the previous planning attempts. If these plans were approved, it would be the end of Fosters Lane as we know it & become another Woodlands Avenue full of random re-developments making the bungalow's un-fit for the purpose that they were built.
