COMMENTS:

I would like to strongly object to the planning application 250959 due to the serious risks posed by the change of use at the old Princes Bros. site.

Previous geological surveys have show the potential instability of the site which when combined with its close proximity to Canberra Lake present an unacceptable environmental risk. The potential damage caused by spillage at this site would be disastrous. Even the proposed site operations such as vehicle washing could contaminate local rivers. At a time when we are seeing increased river pollution by water companies it seems indefensible to knowingly proceed with this development. I would strongly urge that WBC reject this application
