COMMENTS:

"As a resident of 20 years, I strongly object to application 250517. I have witnessed the transition of Spencers Wood from a rural village to an over-developed suburb without the necessary infrastructure to support it.

The traffic on Basingstoke Road and surrounding routes is now at a crisis point; journeys that once took minutes now frequently take an hour for a single mile. This development offers no credible solution to this congestion.

Furthermore, adding 420 homes to a site that the Atomic Weapons tablishment (AWE) has already flagged as a safety risk due to the Emergency Planning Zone is irresponsible. I urge the council to prioritize the safety and quality of life of existing residents over further unsustainable expansion."
