Consultation Responses :

Planning Issues :

1) Impact upon neighbouring properties

2) Impact upon the street scene

3) Impact upon the character of the Area.

Application Number: F/2001/3389

Appraisal:

The proposed development is for a single storey side extension to form a conservatory. It would be 3.4m wide, 3.8m deep and have a pitched roof, 2.6m to the eves and 3.5m to the ridge.

The property is detached, set in a very large plot, within a rural area that is also designated as an Area of Special Landscape Importance (ASLI).

1. Impact upon neighbouring properties

It is not considered that there would be any adverse effects upon neighbouring properties as the conservatory would be set away from the boundaries and is single storey (the closest property is around 45m away).

2. Impact upon the character of the street scene

The conservatory would not be visible from The Ridges, the materials used would match or be in-keeping with existing and it is therefore considered that there would be no adverse effects upon the character of the street scene.

3. Impact upon the character of the area

The proposed conservatory is located in woodland and will have no visual impact on the surrounding ASLI, the conservatory is relatively small and views into the site are very restricted by vegetation. It is therefore considered that the proposed conservatory would have no detrimental impact on the areas rural character or that of the ASLI.

In response to your consultation dated 26 February 2001 for the above application, the landscape comments are as follows:

I have no objection to the proposals. The proposed extension will have no visual impact on the surrounding ASLI as the conservatory is relatively small and the dwelling is located in woodland therefore restricting the majority of views into the site to those gained through vegetation, when travelling along The Ridges.
