COMMENTS:

To whom it may concern

I am writing to express my support towards this project. It is vital for the Muslim community to have a mosque in Wokingham. It is essential that we create an inclusive and welcoming environment for people of all faiths and backgrounds. The establishment of this centre will not only provide a much-needed place of worship for the local Muslim community but will also serve as a valuable resource for the wider area. It will offer various services, such as educational programs, community events, and opportunities for social engagement, all of which will help strengthen the bonds between neighbors and foster greater understanding among different groups.

Furthermore, the Islamic Centre will contribute to the local economy and community life by hosting events that encourage cultural exchange and social cohesion. It is important that we support projects that bring people together, promote respect, and help reduce misunderstandings that can arise from a lack of knowledge or interaction. I believe that the centre will be a positive addition to our community, providing a space where people can come together, learn from one another, and support each other in a shared commitment to making our area a better place.

For all these reasons, I strongly encourage the approval of this application and look forward to seeing the benefits it will bring to the community
