Description of Proposed Works

Please describe the proposed works

We propose to install 2no air source heat pump (ASHP) units. We are aware that a single ASHP unit is allowed as permitted development. But the addition of a 2nd unit requires planning approval.

Due to the volume of the house the mechanical installation design calculates that a 2nd ASHP is required to meet the heating load demand. We have removed the gas supply to the site to utilise a more energy efficient and environmentally friendly heat source.

Has the work already been started without consent?

This is subject to exemptions, an exemption applies in relation to planning permission for a development which is the subject of a householder application, within the meaning of article 2(1) of the Town and Country Planning (Development Management Procedure) (England) Order (2015)*.

Applicants for planning permission are required to make a statement as to whether they believe the biodiversity gain condition will apply if permission is granted, please confirm:

☒ It is my belief that if permission is granted for the development to which this application relates the biodiversity gain condition would not apply

*A 'householder application' means an application for planning permission for development for an existing dwellinghouse, or development within the curtilage of such a dwellinghouse for any purpose incidental to the enjoyment of the dwellinghouse which is not an application for change of use or an application to change the number of dwellings in a building.
