Description of Proposed Works

Please describe the proposed works

There are presently two single storey outbuildings on the property touching each other that are collapsing. They were built 14 years ago; I attach evidence of this and of their evident decline. They are approximately 70 metres from the main house. Attached to these outbuildings/sheds is a bathroom used by gardeners that was installed with the sheds/outbuildings 14 years ago. The buildings evidence water ingress and general structural decline. These sheds/outbuildings have only been for domestic use; they have no sleeping accommodation. The combined structures, plus the adjacent bathroom, cover less than .1% of the property. They are not in front of the house/primary residence. The combined structures are hidden from the street, a street that has very little traffic and are distant from property boundaries. The outbuildings/sheds have no veranda, balcony or decking.

I do not believe after reading the permitted development rules that I need permission to replace these two deteriorating sheds with a smaller version but I apply for planning permission out of respect for the council and to make sure that I am legally compliant with regulations.

The replacement building, although smaller, will continue to be used by gardeners, as a storage facility and as a place to think and study. The toilet facility will stay as is but with a new coat of paint, mildew removed as best as possible. There will be no increase in parking or traffic demand and the residential character of the property will remain wholly intact. The replacement outbuilding will be visually unobtrusive, continuing to be screened from the street and neighbouring properties. No trees will be affected and no changes to access are proposed. The works are intended solely to replace the deteriorating sheds with a smaller, safer equivalent for continued ancillary use. The proposed shed will also be more ecologically fitting with the surrounding area and intentionally integrate elements of biophilic design.

Has the work already been started without consent?

☒ No

Materials

Does the proposed development require any materials to be used externally?

- ☒ Yes
☐ No

Please provide a description of existing and proposed materials and finishes to be used externally (including type, colour and name for each material)

Type:

Walls

Existing materials and finishes:

The original sheds were purchased from a pre-fabricated supply shop: Dunster House. I enclose the original bill of sale which details the materials and finishes that we installed.

Proposed materials and finishes:

The market for pre-fabricated sheds seems to have multiplied massively from when we purchased the sheds 14 years ago. I anticipate purchasing a replacement shed/outbuilding from one of these suppliers. I am submitting a design plan with this application that pictures the basic design of the replacement outbuilding which also compares the proposed design with the sheds we currently have.

Are you supplying additional information on submitted plans, drawings or a design and access statement?

☒ Yes

☐ No

If Yes, please state references for the plans, drawings and/or design and access statement

Biodiversity net gain

Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 sets out that every planning permission granted for the development of land in England shall be deemed to have been granted subject to the 'biodiversity gain condition' requiring development to achieve a net gain of 10% of biodiversity value.

This is subject to exemptions, an exemption applies in relation to planning permission for a development which is the subject of a householder application, within the meaning of article 2(1) of the Town and Country Planning (Development Management Procedure) (England) Order (2015)*.

Applicants for planning permission are required to make a statement as to whether they believe the biodiversity gain condition will apply if permission is granted, please confirm:

☒ It is my belief that if permission is granted for the development to which this application relates the biodiversity gain condition would not apply

*A 'householder application' means an application for planning permission for development for an existing dwellinghouse, or development within the curtilage of such a dwellinghouse for any purpose incidental to the enjoyment of the dwellinghouse which is not an application for change of use or an application to change the number of dwellings in a building.

☒ No

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

(a) a member of staff

(b) an elected member

(c) related to a member of staff

(d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

☐ Yes

☒ No

Ownership Certificates and Agricultural Land Declaration

Certificates under Article 14 - Town and Country Planning (Development Management Procedure) (England) Order 2015 (as amended)
