Do not agreee condition score. Assessment has missed condition criterion B and so condition score is undervalued - some of these trees may be good condition. Also, appears to have missed G81 and G90 trees which are proposed to be removed. Also need to check whether any additional trees should be added to this assessment to account for losses in hedgerows for highway sightlines.	
Do not agree - it's not clear which tree this is and whether it has been assessed including criterion B	
May need to revised based on comments on other individual trees above.

Agree baseline	
Do not agree - not clear why watercourse and riparian encroachment is set to Major for this ditch. There is no supporting justification for this. Recommend that this is adjusted to No Encroachment on current evidence.
