

Tree Trimming.

T1. Is a Leyland Cypress tree which has spread over the drive and needs trimming back by about 1.5m.

G1. A Holly Bush and Bay Tree have spread over the drive and need trimming back by about 1m to the fence line to allow vehicles to use the space to turn.

G2 Conifer trees have spread over the boundary and need trimming back by about 1m.

G3 A Bay tree has grown too high and is brushing against the tiles, is blocking light in to our lounge as well as blocking our internet signal which comes by microwave. The shrub needs reducing in height by 3m and cutting back from the house by 1m

G4 A group of Leyland cypress trees have grown over the patio area and steps down to the lower garden. They need trimming back by about 1m to allow use of the patio. One branch needs removing as it blocks the route to the lower garden.

They also need reducing in height by about 5m as they are overpowering the house
