

Planning number 251486

Submitted by: Julia Trayhorn (Mrs)

Dear Sir/ Madam,

Please include my objections to the above planning number 251486. If these plans were to go ahead it would cause much distress not only to residence but the environment itself I.e. Drainage flooding, access from Edneys hill, disruption to wild life I.e Deer, Red Kites, Foxes & Owls with bats being a protected animal etc.

Barkham was once a village but is gradually becoming part of Wokingham Town with no green areas for the inhabitants of the area to enjoy. To me it is now like living in a suburb of S.E. London, and I do not want these plans to enforce this feeling of being trapped in a concrete jungle with no green spaces.
