COMMENTS:

I've received this notice as I have in the past complained about the serious danger for motor vehicles exiting Easthampstead Rd with the junction of Old Wokingham Road.

I cannot see where safety measures are being placed for when the additional 1700 vehicles that could be residing in this new neighbourhood are.

This area is already an issue without more traffic.

Also are there any allowances for public transport as well as I live very close in a residential park for 70 homes where some residents who are unable to drive or walk much can only rely on taxis and a bus route here would be welcomed if not for their well being.

I look forward to a response
