I have been unable to locate a planning certificate for the original skate park - I have searched multiple planning sites for it - it is possible I am still looking in the wrong place or given the length of time ago it was granted, it may not be available to me electronically.

However, given the skate park has been in existence for nearly 20 years, its use in this location cannot be disputed .

You may also be interested to see a couple of snapshots of the crowdfunder page the users set up - and its success – in gaining the funding for the new skatepark. The full page can be viewed here:

The existing skatepark...

The current skatepark in Twyford was built almost 2 decades ago and is in need of increasing expenditure for repairs and renovation. The existing facility is unsightly, unfit for purpose and does not cater for the diverse needs of the community.

The skatepark is an important facility in Twyford village that encourages sport, fitness, competition, creativity and an outlet for an energetic youth without any expensive user charges. The Council is keen to provide facilities like this, that can be used by all, whatever their means.

Given the existing design, the ramps are currently being used more to climb on than the intended purpose which is dangerous and attracts antisocial behaviour. A modern, inclusive and experienced approach is now being sought to benefit the wider community and provide a facility everyone can enjoy.

Buy us a pint!

We are launching our fundraiser on the Beer Festival weekend. Help us out by buying us a pint! We estimate the skatepark will need 131,000 pints of concrete. Please note that your pint of concrete will go directly into the skatepark - you won't receive it! Thank you for helping make our skatepark project happen!
