COMMENTS:

While not objecting in principle to this proposal, there is a lack of information which makes it difficult to assess the impact. No hours of operation are suggested - presumably in a residential area it would not be acceptable to have clients coming and going late in the evening on a regular basis? And what about Sundays? It also does not say what sort of treatments would be offered. I think more information about noise and smell should be provided, if only to reassure the neighbours that there would not be problems with either. There is also no information about the parking that is available on the site and whether it is adequate to accommodate clients.
