COMMENTS:

Wokingham currently as between 16% to 20 % surplus of Primary School places and alot of them are in Lower Early/Early!!...therefore those Schools are struggling financially and having to cut staff!! There is also a education sector struggling to recruit and therefore we dont need any more Primary Schools(let alone 3 for entry!!). Any children living in this new area will be a few miles away from good Schools that have places!!.

This is the same for Secondary Schools and any new school will struggle, the same as Oak has with numbers.

The area around this side of Wokingham cannot cope with traffic now, let alone with 2800 new homes!!.
