COMMENTS:

I strongly object to this proposal. It is for completely unsustainable development which would destroy the character of Arborfield in a huge green field area. This is a valuable resource for food production at the farm and is used by my family for regularly for leisure activities. The further encroachment into green field site would change the character of the area and the boundary of the Reading urban environment, which is currently bound to the south by the M4. The damage to the environment, the huge impact on resources and additional traffic would cause large-scale and totally unsustainable damage. In addition the proposed travellers site is a notable undesirable aspect of the plans. This is unwanted development that would destroy a green field site and the countryside to the south of Reading.
