PROPERTY ADDRESS : 49 Cheviot Drive  
: Charvil  
: RG10 9QD  
SUBMITTED BY : Mr And Mrs A and M Newnham  
DATE SUBMITTED : 11/12/2025

COMMENTS:

We strongly object to the above application and agree with other residents in Charvil, that it could cause the following problems:-

Environmental Risk:- Metres from lakes and wildlife habitats, with potential for fuel spills.

Public Safety:- Fire and explosion risks in the event of an incident.

Heavy Vehicle Movements:- 132 vehicle movements per week including fuel tankers using a narrow road.

Loss of Peace and Amenity:-Operating hours from 5am -6pm, 7days a week, with tankers outside these hours. Noise, light pollution and fumes harming the quiet character of Charvil and the enjoyment of the Country Park.

We live near many streams, gullies ditches and banks etc of the River Loddon exit to the River Thames, and any spillage of fuel could reach these areas.
