COMMENTS:

I think this would be a great addition to the area! It's definitely something positive for the local community. I would definitely benefit from this personally as I don't like massive busy gyms, this is more bespoke and offers a more personal level of training without the intimidation factor. I know I can't be the only one who is looking for something like this - to have the benefits from fitness, wellbeing and training without having to join a mainstream gym. Love the idea and I fully support this application.
