PROPERTY ADDRESS : Long Barn
: Hogmoor Lane, Hurst, Reading, Uk, Berkshire
: RG10 0DH
SUBMITTED BY : Mrs Diana King
DATE SUBMITTED : 15/09/2024

COMMENTS:

I wish to object to this Planning Application. I have lived here for 42 years and it is still a small rural village with few facilities. The site is a greenfield site in a central part of the village.

Development here would essentially change the character of the village. There is one small, full, primary school which could not possibly take the expected number of children from a development of this size. There is also a village shop and post office. There is no doctors surgery, no dentist, no chemist, so to visit any of these, including shopping in a supermarket and taking children to school whether primary or secondary, would all necessitate the use of a car. Tape Lane is a very narrow country lane and cannot accommodate the amount of traffic that would be generated. The idea of a bicycle lane along the main road, which is already narrow, is simply ridiculous. I see nothing in the proposals that could be enforced once the the houses were built. The supposed advantages, all seem to me, to be reliant upon council work and funding and certainly do not outweigh the harm that this development would bring to the area.

Development on this site has already been refused recently (application 220458) and nothing has changed since that time. This is a large proposed development in a rural greenfield area and it is outside the village envelope.

I urge you to refuse this application.
