COMMENTS:

We are all aware of the intention of the farm owner of the land behind this proposed development to build houses on this plot and has a developer on board.

Allowing an access road from Finchampstead road to this land area starts to be the first part of this happening, it also starts to break the objection to this larger housing development being the need to maintain a green barrier between old and new finchampstead if this proposal is allowed to come beyond the boundary of the nursing home. This site is also not part of the local plan agreed earlier this year
