Appraisal:

Development

For a single storey rear extension to form a conservatory. The site is a detached dwelling located within the identified settlement of Earley. The dwelling is set away from the boundary with No. 98 with a 1.4m close boarded fence and No. 3 with a 1.8m close boarded fence and varying height vegetation. Hedge and trees form the rear boundary. It will not be the full width of the dwelling and extend 4.3m from the rear. The volume of the conservatory and previous extensions would exceed $70m^3$.

1) Impact upon neighbouring properties

The proposed development would be single storey with a hipped roof, the highest point being 3.5m above ground level where the raised patio joins the garden. It would be well set back from all boundaries, being 5.5m from the boundary with No.98. It is therefore considered that there will be no adverse impacts in terms of overlooking, overshadowing and overbearing.

2) Impact upon the character of the streetscene

No part of the conservatory would be visible from the front of the house and it is therefore considered that this would have no adverse impact upon the character of the streetscene.
