RG40 3BA

Woodland

The application site is residential, a single family dwelling unit set within 800 square metres of private curtilage. Whilst there are trees within the curtilage none of these will be removed and all are a distance away from the siting of the proposed oak porch to the front of the property.

Protected/Endangered species

There is little probability of this site representing habitat to protected species, the proposed oak porch is to be erected on the footprint of the existing open porch.
