COMMENTS:

As a member of the country park fishing society in Charvil, I couldn't think of a use of this site any more unsuitable than fuel storage and distribution. This could have catastrophic consequences on the natural habitat and waterways that round this site. The country park is obviously home to much wildlife and fish and in all honesty I am struggling to see how WBC is even allowed the application to get anywhere. I hope with enough public persuasion you will see this is completely unacceptable for its consideration.
