COMMENTS:

As a member of the bailiff team on the charvil angling syndicate next door I strongly object to this proposed development. As will be mentioned by most of the neighbours the site is surrounded by flood plain and I have personally witnessed water levels within a foot or so of the area they wish to store fuel, that to me is a big enough reason for concern! The environmental damage caused by an accident would be catastrophic for the local wildlife/waterways and even surrounding areas as flood waters recede into the river loddon and eventually into the Thames! Other factors to consider is the noise/light pollution and potential traffic issues on the old bath road!
