COMMENTS:

As one of the more recent residents to the area I have invested in my home in light of the quietness of the area. When school road was closed to through traffic that was a bonus. One of the main challenges in this is area is primarily amenties, local stores etc. Furthermore road access to School Road is very narrow by design and would no doubt create challenges for residents at that side of the road and compound that with the school pickup traffic doesn't look ideal.
