COMMENTS:

Hello

I object on the grounds it sets a precedent of building on back gardens, when within Crowthorne there is already a large amount of housing development, thus no need for this. It would spoil and harm the woodland environment we have down this lane. In addition causing issues with parking and ability for emergency vehicles if required. Within the borough, nature is already taking a hit with unlawful tree felling, please leave this lane as is, we do not need more buildings which are not in character of the area. The residents use this lane for dog walking and children walking to school, please do not spoil this environment.
