COMMENTS:

Dear Consulting team,
I strongly object to the proposed construction on the following grounds:

The old forest road is unable to handle the increased traffic flow that will result from adding 53 new houses.
The impact on the wildlife residing in this area, including deer, foxes, and numerous birds, is significant.
Impact on the Wokingham town, which is stretched with traffic, public services, and school places, is going to have a very negative impact on the residents.
By adding such huge development on a local road like Old Forest Road, it risks the lives of the residents with pollution.
So I request the planning authority to reject this application ..
