COMMENTS:

Please do not grant permission for the existing business at 95b Bean Oak Road to be retrospectively changed from a restaurant to a hot food takeaway business. This has already cause extra traffic and noise on a quiet road, we have had an increase in mopeds, electric bikes and

delivery cars up and down our road and because there's little or no parking left outside the parade of shops, we often get vehicles blocking our driveways so we can get in or out when we want to.

The road always needs to be cleared of food packaging debris caused by the increase in takeaways being produced. When it was a restaurant there were no issues or concerns about noise, traffic or food

packaging waste.

This is a majority residential road with a small parade of shops, please do not give retrospective consent to No 95b to be a takeaway business. Thank you
