DATE SUBMITTED : 23/01/2026

COMMENTS:

This land should NEVER be allowed to be built upon; it sits NEXT to a primary school and would have a terrible impact on the physical and mental health of the children that attend. The village is already PACKED and School road is already extremely congested as is during the school run hours. Adding MORE people, cars and work equipment to a tiny village road that is already bursting is mindless. What s shocking application.
