Listed Buildings are classed as designated heritage assets under the NPPF (2023) and in the Council's Local Plan policies.		
Site Visit Made:	Previously		

Summary Of Recommendations

No objection subject to advised condition below.

Comments On Proposal

The proposed small infill single storey extension to 'square-off' a rebated element on the rear aspect to the modern dining room extension that has been built off the south-western end of the grade II* listed building and connects up with the nearby separately listed grade II status former cottage.

This proposed extension appears unchanged from the scheme previously put forward in a pre-application enquiry (241010) earlier in the year for comment on, and which from a heritage stance was considered in itself to not unduly effect the significance of the designated heritage assets. That said, concern was expressed then of any further future enlargement of the combined listed buildings in the cumulative additions to the two historic buildings potentially reaching a tipping point in terms of being viewed as being detrimental to the original historic form and layout of these designated heritage asset and have an adversely impact to their setting as well.

In summary, whilst the proposed small infill extension is hereby considered to be acceptable it is however believed any further additions will need to be carefully considered if they are to avoid adding to this situation, whereby the prominence and legibility of these important historic host buildings being subsumed and overwhelmed by the modern additions to them.

Conditions
