Comments On Proposal

The Highways received the revised submission to address to the Highways responses dated 14th November 2024 on the sufficiency of parking provisions.

The proposal will increase the numbers of habitable rooms from 5 to 6. As the existing garage of dimensions 5.5m x 2.9m does not fully meet the council's requirements for car parking, there will be no loss of garage parking. Two driveway parking are proposed within the red line.

According to the WBC Car Parking Standards, the development in Urban location will require two parking within the red line boundary subject to the total numbers of habitable rooms. Each parking space shall have minimum dimensions of 5.0m x 2.5m.

The proposed driveway of 11.6m long will have sufficient spaces for two driveway parking, which is acceptable.

The proposed store will be suitable for cycle storage, which is acceptable.
