Dear Mr Cherian,

REGULATION 14(2) NOTIFICATION FOR EMERGENCY WORKS

TREE PRESERVATION ORDER: 3/1951

APPLICATION NUMBER: 242113

LOCATION: 8 MULBERRY CLOSE, WOODLEY, WOKINGHAM, BERKS, RG5 3LR

Thank you for your valid Regulation 14(2) notifications which was received on the 19 August 2024.

I can confirm that under Section 14(1)(c) of the Town and Country Planning (Tree Preservation) (England) Regulations 2012, you can undertake the following works listed below, because the tree(s) are considered to be in the category of 'dead and / or dangerous' with the potential to cause harm to persons/property.

Photographic evidence was submitted to the Council confirming works are required to make the area safe. The Council deems it necessary to not object to the works listed below, at this time.

Proposed works to trees subject to W3 of TPO/3/1951:

T1 Scots pine

- Fell to just above ground level.

Reasons stated for works:

T1 Scots Pine

- I am writing to urgently bring to your attention a potentially hazardous situation in my garden. We have a Pine tree that is growing in a very precarious, leaning position towards the public road, BT lines, and an adjacent Oak tree. I am deeply concerned that this tree may fall, especially during adverse weather conditions, posing a serious risk to the nearby house, the public infrastructure, and the safety of my family.

A few months ago, during a storm, several branches from this Pine tree fell to the ground. This incident highlighted the imminent danger the tree presents, and I am particularly anxious about the safety of my young children when they are in the garden.

Attached, you will find photographs of the tree showing its dangerous leaning position. Given the risk it poses, I am requesting to carry out Tree Felling on the danger tree. I want to emphasize that I have six other trees in the garden, including a couple of Oaks and other species, so the removal of this Pine would not detract from the overall greenery of the area.

I would appreciate a prompt response and action to ensure the safety of everyone in the vicinity.

Thank you for your attention to this critical matter.

Informative:

You are advised that this letter is in respect of the **Tree Preservation Order only** and it does not imply that consent would be forthcoming from the owner of the tree(s) or any such other persons from whom consent would be required.

Please contact the Tree and Landscape Team on 0118 974 6000 if you have any queries or wish to discuss this further.

Yours sincerely

Chris Hannington
Trees and Landscape Team Manager

Please note that your attention is drawn to the following information:

Bird Nesting Season and Presence of Bat Roosts

In accordance with the Wildlife and Countryside Act (1981) and Countryside Rights of Way Act (2000), consideration must be given to the timing and type of tree work operations, to avoid causing disturbance to any nesting birds or bat roosts that may be present within the tree(s).

The Act makes it an offence (subject to exceptions) to intentionally kill, injure, or take, possess, or trade in any wild animal listed, and prohibits interference with places used for shelter or protection, or intentionally disturbing animals occupying such places.

It is advised that all non-urgent major tree work and hedge cutting operations are undertaken at a time to avoid disturbing nesting birds during the breeding season (to which the bird nesting season is considered to be from March to July). Where bats are suspected to be present, it is recommended that advice first be sought from a licenced bat specialist and if appropriate, the relevant licence(s) be obtained before any major tree work or hedge cutting commences.

Forestry Act 1967 and Felling Licences

If it proposed to fell a tree or trees greater than 5 cubic metres or sell more than 2 cubic metres of timber in any calendar quarter, a Felling Licence from the Forestry Authority may be required.

Please note that Felling Licences are not required to remove trees from domestic (residential) gardens. Where you are the landowner of large pieces of land with numerous trees, clarification from the Forestry Commission may be required as to whether a Felling licence is needed.

For more information on Felling Licences, please speak to the Woodland Officer at the Forestry Commission on 01296 696543

Further Information can be found on the Forestry Commission Website:
www.forestry.gov.uk
