COMMENTS:

I wish to appeal the proposal to build 2,800 houses on Hall Farm. I have lived in the area my whole life (moving from the Shinfield side of Hall Farm, to the Church Lane, Arborfield side) and walk/run on the public footpaths that cross Hall Farm daily, and have done for several years. During lockdown, this area was an essential escape for our daily walks and a vital support for both physical and mental wellbeing. The loss of this farmland would permanently remove an important and well-used green space, further reducing local access to nature and ruining the character of the area for current and future residents.
