COMMENTS:

I strongly object to the proposed planning. The road infrastructure will not be able to cope, compromising the safety of the roads and users in the area. this development would bring additional traffic to already packed roads. In addition, the loss of the natural conservation and wildlife will be catastrophic to the abundance of wildlife that reside in the field. Specifically the red kites, pheasants and deer. I would also like to point out that the proposal to build another primary school, while schools are being significantly impacted by low birth rates and falling pupil number means that established local schools survival may be impacted - changing the make up of this semi rural area.
