COMMENTS:

I made some comments against the previous versions of this plan. All these comments still stand. I have read some of the other comments made by road house holders and agree with most of them so will not reiterate here but there is still no proper solution for the number of cars that will actually be using this site rather than the expected number. There is woolly wording which will not be enforceable after the event and will just put the problem onto the people who live on Park Road/Avenue. Finally - I do not appreciate the fact that multiple new documents have been added to the application without any notification being given to the residents. We have had to continually monitor the site to be aware of changes to a proposal that will affect us enormously.`
