COMMENTS:

As a resident of Charvil for the last 30 years, I am very concerned about the dangerous plans for this site. The old Bath Road is an extremely narrow Road with restricted sight on a bend. The footpath is very narrow if you are walking with a pushchair and someone is approaching you from the opposite direction, one of you has to step onto the road to allow passing, the footpath needs widening and has always been a problem. "Large lorries driving through down that road is an accident waiting to happen. Lives will be at risk. I hope this is a risk that has been seriously considered. The turning of large lorries into the site and when leaving will cause chaos. In a village with so many local schools and pupils walking to and from school, I seriously feel this fuel site should not be allowed to operate.
