OS Buildings Surveyed Buildings

This survey has been originated to the Ordnance Survey (O.S.) National Grid OSG836 (15) via Global Navigational Satellite Systems (GNSS) and the O.S. Active Network (O.S. Net).

A true OSG836 coordinate has been established near to the site centre via a transformation using the OSTN15GB & OSGM15GB transformation models.

The survey has been correlated to this point and a further one or more OSG836 (15) points established to create a true O.S. bearing for single orientation.

No scale factor has been applied to the survey therefore the coordinates shown are arbitrary & not true O.S. coordinates which have a scale factor applied.

Please refer to Survey Station Table to enable establishment of the on-site grid.
