COMMENTS:

We are overlooked and three meters from Ascot House ground floor apartment windows. The car park which is the other side of our garden wall, has single lane traffic to the carpark.
If you add 10 additional new flats to this building it will add 20 people with the possibility of 20 cars, we hear the cars coming and going to and from work and the noise levels are just about tolerable.
All your doing is adding more people to an already overcrowded neighbourhood.
The roundabout at the entrance to Ascot House is constantly congested and you are adding more cars, more congestion and more pollution.
