COMMENTS:

I strongly object to lifting the restrictions on delivery timings. The initial plan was approved with restrictions imposed on vehicle movements after 10 pm, nothing has changed since then, so can't see a reason why the restrictions need amendment. The units are not yet in operation and we already see lorries and heavy vehicles parking in close by residential areas, leaving the engines on. Once the units are operational, residents have to deal with lot more issues around safety, security, and quality of life; and unrestricted movement will only make it worse.

Also, the oversight will allow other units to take unfair advantage, abuse and exploit the situation & timings. I request you to consider the damaging impact it will have on neighbouring community.
