COMMENTS:

To reiterate a key point raised in my original objection, and based on the plans being recently re-submitted, I object yet again to the current application which continues to incorrectly publish 4 Park Road's boundary line. I urge the reviewing committee to request Land Registry proof, which will detail our boundary running the course of the sketched bollards which is now a fence - NOT the flank wall of our property. There is also no response to our right to light legal analysis (a number of breaches detailed).
