COMMENTS:

I wish to object.

1. The site is in the countryside and outside the settlement boundary.
2. The site is too close to the new nature reserve and will detrimentally affect wildlife.
3. There is no public transport in the village and no way to access secondary schools, shops and doctors surgery, railway stations other than by car. This is unsustainable.
4. Access to the site is at a dangerous point in the road where the speed limit changes to 30 from 60. The constant flow of cars necessitated by the lack of public transport makes this extremely hazardous for those already on the road or attempting to join it.
5. The sewage plant immediately adjacent to the site is already at full capacity.
