COMMENTS:

I strongly object to these plans which will lead to the irrevocable destruction of beautiful and valuable green farmland to the south of Reading. This is a valuable and sustainable resource providing food and leisure (extensively used by myself and family and many others). The University is utterly hypocritical in selling land off to create totally unsustainable development in a green field site. The huge additional infrastructure and traffic if this disgraceful proposal goes ahead will also completely destroy the environment (total non-sustainability). It would forever iradicate the distinctive character of a large chunk of the south of reading which is a greenfield site comprising farmland, churches and old houses.
