COMMENTS:

I would like to strongly object to the above planning application. The town of Wokingham / Wokingham without is substantially oversubscribed and this new development has inadequate supporting infrastructure to accommodate this additional population. The development will place further pressure on already stretched local services, including schools, GP surgeries, childcare provision and the existing road network. Increased traffic and congestion are also likely to create additional pressure on local roads and parking.

While additional housing may be necessary, it should be accompanied by appropriate investment in the infrastructure and services required to support the new residents. In the absence of clear and sufficient provision for these essential facilities, I believe the scale of the proposed development is inappropriate for the area and should be reconsidered.
