COMMENTS:

Victoria Road is already extremely busy with cars parked almost top to bottom. This site would cause more traffic and while the work is carried out the site traffic would cause danger to us all. Many school children cycle and walk up and down Victoria Road. 8 dwellings would have very little garden and not enough parking. You claim bus stops and access to the station and surrounding area; buses do not run to the station and the bus service is limited to Saturdays and I journey to Reading on a Wednesday. This proposal is not acceptable
