COMMENTS:

Dear Sirs

I would like to strongly object to the proposed development at Thamesfield Retirement Village. My husband and I purchased 9 Remenham Row at the time it was developed in the residential area of Remenham Row which boasts traditional Georgian and Victorian architecture mainly due to the charm and conservative styles in the area.

The proposed development will not only be totally inconsistent with the architectural styles in the area, but it will also have an impact on the amount of sunlight into many units in Remenham Row, and also on the privacy and security of Remenham Row residents during the proposed construction and thereafter.

The proposed development will also ultimately impact property prices in Remenham Row as it will no longer be the desirable location that it is now for many who have chosen Remenham Row as their retirement home.

Reflecting the thoughts of many residents, the proposed development is totally unacceptable as the site is already over developed. We would ask the Council's officers to visit our side of the development to hear the views of the residents at Remenham Row who are the only members of the public to be directly affected by the proposed development.
