COMMENTS:

My concerns are the amount of congestion the extra cars will cause. Woodwaye already has many people using it as a car park for shopping at the shops , the local bus service and working locally. Emergency services are another concern trying to negotiate getting through. If carers and family are unable to park on the quite small drive they will then be obliged to park in the road..The yellow lines are ignored frequently in both roads . I feel the site is most unsuitable for the purpose they are proposing
