Description of Proposed Works

Please describe the proposed works

We are writing to seek permission to install a wrought iron driveway gate and a pedestrian gate at our property on Basingstoke Road. Our household includes a three-year-old toddler and a Jack Russell Terrier, and our primary concern is to enhance the safety and security of our home, given the proximity to the busy Basingstoke Road.

Proposed Modifications:

Driveway Gate: We plan to install a wrought iron gate that opens inward into our property. The choice of wrought iron is in keeping with the aesthetic of the property and the surrounding neighbourhood. The gate will provide a secure barrier between our driveway and the busy road, ensuring the safety of both our child and pet.

Pedestrian Gate: We intend to install a separate pedestrian gate alongside the main driveway gate. This will allow easy access to and from the property when the driveway gate is closed, ensuring convenience without compromising security.

Parapet Wall and Fence: We aim to maintain the current white parapet wall as it aligns with the existing aesthetics of our property and the neighbouring homes. We propose adding a wrought iron grill fence atop the parapet wall to support the new gates, which will provide the necessary height for the gate pillars. This design will blend seamlessly with the existing structures, preserving the visual harmony of the area.

We believe that these proposed changes will not only improve the safety and functionality of our property but also complement the character of the neighbourhood. The wrought iron materials and design have been chosen carefully to ensure that the modifications enhance, rather than detract from, the overall appearance of the property.
