COMMENTS:

I think that to compliment and align with the important visual aspect of the listed house next door (The Verge), and in keeping with the many old/listed buildings in the area I think that the design of the roof pitch is not in keeping and should perhaps be reviewed. We are also concerned from an environmental point as we have bats that periodically nest in our roof space. However, we wish to support our neighbours at the school and these are the only concerns we have at this time.
