COMMENTS:

The area cannot take another huge development, whilst other developments fall under Bracknell the pressure on roads and local amenities is the same.

Bucklers- 1000 homes

Beaulieu Park- 250 homes

South Wokingham Development- 1000 plus homes

Johnson and Johnson site- 100 plus homes

In the last 7 years something like 4000 homes have been added to the boundaries between Bracknell/Crowthorne and Wokingham, with huge loss of green space and no real increase in Doctors/dentists or amenities. Plus no decent investment in roads to divert cars away from towns or at least slow them down.

When building these developments , construction lorries will clog up and damage Old Wokingham Road , Easthampstead Road and Nine Mile ride

Once built it will add 1000's of cars on to already crowded roads

Crowthorne is a rat run now and will become totally gridlocked
