COMMENTS:

You show access through shipridge drive when there's no parking other than less than a handful of visitor parking spaces, there is no path it would be walking straight through car parks!
Car park already has kids playing in without more waking through, ople regularly park on the bends so you cannot see where driving.

One way rounds with even more traffic as Oakbank parents use the estate as a rat run, so many near misses due to bad parking.

Keep building primary schools but there will be no secondary schools for the kids to go to
