COMMENTS:

I am strongly against the application of the removal of restricted delivery times.

Allowing unrestricted hours will significantly impact local residents with the increased and constant noise throughout the day, evenings and nights. This will also result in disruption of sleep, reduce quality of life, increase traffic which can increase the risk of accidents, congestion and risk to children playing in the vicinity.

Additionally, the constant movement of heavy vehicles can damage road infrastructure and contribute to air pollution, affecting public

health. I strongly urge you to maintain restricted delivery times to help mitigate these issues, providing residents with quieter, safer, and more liveable and safer environments.
